Bizz.Tools SS24

The Bizz Tools collection is a range of highly functional bags that cater to the needs of the business professionals. The hexagonal metal logo and other black trimmings bring about a sense of Cat toughness, while still maintaining a discreet and professional look with the two-tone dark fabric. You will not only look classy; but become classy with the Bizz Tools collection. The design of the Bizz Tools collection was inspired by one of the founding fathers of Caterpillar, Benjamin Holt, who was a true businessman and inventor who changed the world of earthmoving. This we celebrate with the use of a track-type system pattern on the front made in EVA and with a shiny oil looking stripe detail for added ruggedness.

City Adventure SS24

City Adventure is our simple and practical on-the-go collection. This collection meets the demands of an everyday product with its many compartments. This collection has a discreet design without lacking the recognizable Caterpillar details and is designed for when you are on the go. The body fabric derives from recycled PET bottles and thus provides a nice, durable and comfortable feel; the perfect companion for festivals, vacations, and of course City Adventures, whether you go with a smaller shoulder bag or backpack.

The new color of this season is Taupe.

Signature SS24

The Signature Collection is a fusion of heritage products and the story of one of the most significant tractors in the history of Caterpillar: The Sixty – a machine core to the DNA of Caterpillar, dated back to 1925. The Signature collection is built with two unique identifiers taking inspiration from the Sixty tractors: 1: A front cross section on the products give a direct reference to the front of the Sixty, created with the use of Cat Bags & Luggage visual identity strap. 2: The Cat logo in the recognizable corporate yellow is peeking out behind a mesh panel on all products, referencing a front cooler machine panel. In this collection, we mix different material types of ripstop and PU, giving an elegant and modern look to the Cat product family.

BAGS & LUGGAGE

Wallet Line SS24

Our Wallet Line is created to be strong, tough and reliable. The Wallet Line is further designed to be timeless in style, having a clever architecture with room for smaller personal items, currency, credit cards and identification. Our wallets are produced in durable PU vegan leather, making it an attractive option for the modern person. To ensure the Caterpillar DNA recognizable details have been implemented such as the recognizable CAT logo, the Millennial Classic stitching is a repetition in some of our wallets.

CATERPILLAR®

CORE COLLECTION

The Core Collection is the newest addition to our Cat® bags family, and we are happy to welcome it with this year's season. With its water-resistant material this collection is suited for any weather condition and is ideal for a rainy day.

The whole collection is produced in the same strong and durable material with a smooth finish. Though this collection is simple it does not compromise on the details, which is why you can also expect the highest quality possible.

These bags are filled with details such as metal and plastic hardware and black trimmings. Each product in this collection has a recognizable CAT logo in rubber, matching the color of the fabric.

 **CATERPILLAR®**

A close-up, black and white photograph of a woman with dark skin and hair pulled back. She is wearing a dark, zip-up jacket. A light-colored fanny pack with the Caterpillar logo is slung across her chest. The background is a plain, light gray.
