DYNACUBE

For your inner fidgeter

Long queues, waiting rooms, the clock ticks and tocks forever...good thing you brought your Dynacube!

Endless variations for busy fingers. Pick it up and never want to put it down. The first geometric shapes are easy--but now how about the other 100?

PLANETS

Can you master the planets?

Twist and turn four globes until each side has the same color, seems easy enough. But when you see the planets only move with each other, you'll realize the gravity of the challenge!

Ages: 7 and up
1 player

Item# RT21

EQUAL7

Rule your roll

Luck won't help you with this puzzle—but you might wish it would! Equal7 is a mathematical masterpiece with two different challenges, each a different level of difficulty. Tilt the cube and slide the dice to and fro, until all the dots on each side equal the same number—10, 11, and 12 are all possible combinations, with more than one way to get there. Once you've conquered those combinations, the real test is getting to seven—Equal7! Once you've solved it, present your achievement on its own built-in pedestal. Now the puzzle is your trophy!

CUBIGAMI7

You've never done origami quite like this!

Flip the plastic tiles up and down to make different "Cubigamis". The first one or two are easy enough, but the real challenge is seeing through all three dimensions to craft all SEVEN shapes.

Ages: 7 and up
1 player

Mastercartons 24 pcs

Suggested retail price: \$ 14,95
Item# RT11

BRAINDICE

Finally a puzzle where you can win every roll!

Place all six dice randomly in their molded plastic chambers, then turn the knobs until the combinations on all sides equals the number of pips on the dice. Don't think it's worth the gamble? Well, it's not as dicey as you think. With literally thousands of numeric combinations, there is always a solution...all it takes it just one more roll.

Ages: 7 and up

Item# RT31

ICOSOKU

Matching dots to numbers

Place the number tiles in random slots, then match the number of dots on all five intersecting triangles to each tile. All done, right? Not so fast. Now you can build your next challenge—simply swap a few number tiles and the game continues! Remember: a solution is always just around the next twist. With the perfect geometry of an icosahedron, Icosoku can be solved every single try!

BRAINSTRING ORIGINAL

It's knot what you think

The mystery of Brainstring Original isn't just how to untie a twisted 'knot' of strings in the center, but how it can be that all its strings can be interchanged—WITHOUT creating a knot! Four groups of different colored strings, four strings per group, moving up, down and around all six sides of a polycarbonate shell...beyond just tying or untying a knot, what kind of beautiful symmetries can you create? Brainstring Original isn't just a puzzle—it's a work of art.

Ages: 7 and up

Item# RT01

BRAINSTRING 'R'

Take it for a spin

Just as knotty as the original, Brainstring 'R' features an internal sphere with 360-degree spin. Twist, turn, stretch and slide the colored buttons in every direction to unravel the twist of strings in the centre. Congratulations, you've solved the puzzle—but now can you re-tie the 'knot'? This one will have you on the ropes!

Mastercartons 24 pcs
(inners of 6)

Suggested retail price: \$ 19,95
Item# RT26

Even Houdini needs your help!

The greatest escape artist of all is tied up—and he needs YOU to set him free! Slide the strings round and round the master himself, until you've wiggled him out of his 'chains'. But then, can you put him back in? (don't worry, Harry won't mind!)

BRAINSTRING ADVANCED

If you like Brainstring Original, you'll love Brainstring Advanced!

With 8 sides instead of 6 and 3 strings per side instead of 4, this Brainstring offers an even more confounding challenge!

Make a knot, or straight lines, or makes patterns of your own with the nylon strings—holding the polycarbonate orb and grabbing the strings the ergonomic nubs is a joy for the brain AND your fingers!

GEAR CUBE

Get in full gear!

The Gear Cube is a brand-new concept in the puzzle-lover's world. This cube uses a full gear mechanism throughout its design, so that every full rotation takes twelve 90 degree turns. A brilliant design—you might not even want to solve it!

XXL GEAR CUBE

You'll have your hands full!

With its constantly shifting gear mechanism, Gear Cube XXL is the newest concept in puzzle design. Twist and turn the cube to mix it up, then solve by returning all six sides to solid colors. But this isn't your average cube...one full rotation requires twelve 90 degree turns. A unique puzzle—and literally TWO handfuls to solve!

Item# M5034

SKEWB XTREME

X-treme puzzle fun!

Skewb Xtreme pushes puzzles to the limit! The first challenge is solving the puzzle so that each side shows one of ten solid colors—tough for sure, but not impossible (we promise). The second challenge, of course, is whether or not to 'solve' it at all: symmetrical from nearly any angle, the X-treme is so beautiful, you may just want to show it off!

The one that started it all

The Pyraminx was created by scientist and inventor Uwe Meffert 50 years ago. One of the very first twisty puzzles, if not the first, and now the Pyraminx and Uwe are world famous! It's hard to beat a classic...the original Pyraminx.

NEW

PYRAMINX CRYSTAL

The original king of twisty puzzles, now in crystal!

Looking good at 50! Together with Professor Uwe Meffert, the inventor of the Pyraminx, we celebrate the Pyraminx's golden anniversary with our transparent crystal rendition of the original classic puzzle.

FELIKS 9

Can you catch the rainbow?

A new challenge worthy of the avid puzzler's interest. Instead of solving a color for six sides, arrange the curved rainbow-colored pieces so that each of six sides contain all nine colors! The rows turn smoothly in your hands, and the pieces flow seamlessly from one to the next. Not as smooth or seamless is the path to a solution, though!

THE WAITER'S TRAY

Ages: 14 and up
1 player

Master cartons 12 pcs
(inners of 6)

Suggested retail price: \$ 24,95
Item# C5061

This waiter is ready for a break—but first he must remove all the bottles from his tray

Can you help move the bottles up and down to gradually slide them all out of the tray? Think twice: some bottles need to be moved more than once, and some are locked until you move the balls holding them in place. Upon completion, why not try putting the bottles all back?

DOUBLE TROUBLE

A maze? A puzzle? Why not both!

Two mazes, two balls, everything connected by giant gears. On their own, each maze is manageable. Can you find the way to remove both balls from the mazes simultaneously, though? Careful! The gears move at the same time, so a step towards the exit on one side may be a step backwards on the other.

Ages: 14 and up

Item nr: RT5105

"YES" Bars

Y-E-S is the easy part!
Rearrange all three individually symmetrical metal letters until you have a single symmetrical shape. There's only one solution though--and you may be saying "no" after a few attempts before you successfully say "Yes!"

Chichen Itza

Chichen Itza, ancient capital of the Mayan civilization, is famed for its pyramid temples and giant steps. Can you summon the wisdom to create two different symmetrical shapes? There is a hint in this description...!

Broken Twig

Think sharp! Rearrange the custom metal “twigs” until they form a shape with identical sides. With only two pieces, and with not just one but two solutions, you may find this puzzle stickier than expected!

The Chimera

Two crafted metal pieces that form one symmetrical image--is it a sign? A building? Perhaps it's a person, you think, as you try another combination...but with limitless ways to join them, and only a single unique solution, you'll find that this puzzle is a real headscratcher!

KRASNOUKHOV'S AMAZING PACKING PROBLEMS

It can't fit... can it?

Ever put something together a hundred ways trying to squeeze in that ONE last piece?

Now try your hand at a real geometric challenge! Everything fits so perfectly at first... nothing else can possibly fit... unless...!

MIKE HARMAN'S MATCH & PAIRS

**Coming
soon**

Match!

Match requires a sharp mind and quick reflexes. With two identical sets of eighteen playing cards, you'll have plenty of chances to find matches. Better think fast, though—with Match, all players search for matches at the same time.

Pair!

Test your memory to the Max!
This seemingly simple game goes one step further. Merely eight identical pairs of square tiles to match must be child's play...right?

Based on the art of Mike Harman.

Mike Harman is a truly original English artist born in 'the garden of England' Kent. He is also the creator of the Colour Buddy Concept and the 'Imagination Pictures'.

CARD & DICE

The big five

The Big Five is a selection of the best classic card and dice games. We studied hundreds of existing games and made this selection based on the following criteria:

- Great play value
- Simple and clear instructions
- Dynamic and quick play
- Ideal for friends and family

Recent Toys International, founded in 2001, is dedicated crafting 'intelligent' brainteasers hands-on puzzles that challenge the brightest minds and inspire players of all ages. Our products are simple, smart, one-of-a-kind and made to last, providing endless hours of mental stimulation whether you are a beginner or Master Puzzler.

Recent Toys International strives for quality, durability, and affordability, for sellers as well as consumers. This is our mission.
