MIKE HARMAN'S MATCH & PAIR

Based on the art of Mike Harman

Mike Harman is a truly original English artist born in «the garden of England» Kent. He is also the creator of the Colour Buddy Concept and the «Imagination Pictures». His immensely unique artwork was the base for two new games: Match and Pair!

Match!

Match requires a sharp mind and quick reflexes. With two identical sets of eighteen playing cards, you'll have plenty of chances to find matches. Better think fast, though — with Match, all players search for matches at the same time.

Pair!

Test your memory to the max! This seemingly simple game goes one step further. Merely eight identical pairs of square tiles to match must be child's play...right?

TOUGH MEASURES

The ruler of all puzzles

It sounds simple: position the rules to that they both fit on the grid together. But the rulers cross over each other, on top or below, and the fit has to be just perfect. There's no measurement for a challenge like this!

DOUBLE TROUBLE

A maze? A puzzle? Why not both!

With Two mazes, two balls, everything connected by giant gears. On their own, each maze is manageable. Can you find the way to remove both balls from the mazes simultaneously, though? Careful! The gears move at the same time, so a step towards the exit on one side may be a step backwards on the other.
