WHY LEGO® BAGS?

LIGHTWEIGHT: A packed bag should at maximum weigh 15 % of the child's body weight. We offer a wide range of lightweight bags to ensure that unnecessary load is kept to a minimum.

ERGONOMIC: It is important that the back of the school bag follows the child's spine. We offer bags with padded, wide shoulder straps, adjustable hip- and sternum straps and ergonomic back panels to ensure high comfort.

PVC FREE: Our assortment only consists of products free from PVC, phthalate and AZO dye and are produced under the European REACH regulation.

360-DEGREE REFLECTIVE: It is important to be visible in traffic, and especially, if the child walks or takes the bike to school. All LEGO® bags have reflective material on all four sides to ensure maximum traffic safety.

ICONIC DESIGN: Going to school should be fun and children should enjoy bringing their school bag on new adventures every day. We hope that the designs inspire to creativity and play, and that the children will go on new adventures with their favourite LEGO® figures.

All LEGO® School Bags are...

All LEGO® school bags are made of water repellent material and have reflective elements on all four sides of the bag to provide maximum safety in traffic. We value high wearing comfort, which is why all our bags have an adjustable sternum strap for optimal fit. LEGO® school bags are all equipped with a name tag inside for easy identification and an interchangeable buckle system for easy attachment of keys or our LEGO® wallets.

*These features apply to the following school bags: Explorer, Explorer Premium, Easy, Maxi, Optimo, Freshmen, Starter and Recruiter school bag.
